

NSCSA Levy Calculation – Old vs New Method

The following outlines what the average NSCSA levy companies would pay (before experience rating factors are applied) with various levels of payroll under the old and new method in 2015:

Total Assessable Payroll	New Levy (0.17 / \$100 Assessable Payroll)	Old Levy (2.6% of WCB Assessment)	Difference
\$50,000	\$85	\$49	\$36
\$100,000	\$170	\$98	\$72
\$250,000	\$425	\$244	\$181
\$500,000	\$850	\$489	\$361
\$1,000,000	\$1,700	\$978	\$722

The following outlines what the average NSCSA levy companies would pay (before experience rating applies) with various levels of payroll under the old and new method in 1994, when the NSCSA was first established:

Total Assessable Payroll	New Levy (0.17 / \$100 Assessable Payroll)	Old Levy (3.5% of WCB Assessment)	Difference
\$50,000	\$85	\$91	\$(6)
\$100,000	\$170	\$181	\$(11)
\$250,000	\$425	\$453	\$(28)
\$500,000	\$850	\$907	\$(57)
\$1,000,000	\$1,700	\$1,813	\$(113)
