### Safe Job Procedures

<b>Name of Job:</b> <b>Confined Space Incident</b>	<b>Development Date:</b> <b>March 30th, 2011</b>	<b>Developed By:</b> <b>CSNS</b>
---	---	-------------------------------------

#### Possible Hazards Present

Claustrophobia	Injury or death	Asphyxiation	Potential acute or chronic health problems
Inhalation of fumes or vapors			

#### Personal Protective Equipment (PPE) and Devices Recommended

Steel toed boots	Eye protection	Hand protection	Fall arrest and quick retrieval equipment
Respiratory protection			

### What is a proper safe job procedure to follow?

- Stop and clear all work in vicinity and ensure that no workers enter the confined space
- Utilize confined space rescue plan and call 911
- Secure the site against further danger or injuries
- Designate a worker to wait for emergency responders and lead them to accident area
- Hoist injured worker to surface
- Commence First Aid until relieved of responsibilities
- Begin accident investigation

Please note: This document is for information purposes only as a guide. The safe job procedures (SJP) and safe work practices (SWP) created for your workplace should reflect your organizations processes, equipment and hazards as identified by a hazard analysis. Construction Safety Nova Scotia does not assume responsibility for the use of information in this document. If assistance is needed to complete a SWP and SJP for your organization please contact CSNS member services at [constructionsafetyns.ca](http://constructionsafetyns.ca) or 1.800.971.3888.
