### What is a proper safe job procedure to follow?

- Do a thorough inspection of the site
- If possible, enter the building with supervisor to look for:
  - People
  - Appliances containing Freon
  - Hazardous substance, such as asbestos and lead paint
  - Tanks, wells, flammable or explosive material
- Ensure that all the proper permits have been obtained
- Ensure all utilities have been disconnected
- Notify property owner and adjoining property owners of time and date of demolition
- Demolitions to buildings adjoined to another building must be properly stabilized
- Barricade or fence the entire area to keep bystanders and traffic out of area
- Proceed with demolition
- Sort and haul away waste and rubble to appropriate facilities
- Clean up site as per local government regulations
- Remove barricades

Please note: This document is for information purposes only as a guide. The safe job procedures (SJP) and safe work practices (SWP) created for your workplace should reflect your organizations processes, equipment and hazards as identified by a hazard analysis. Construction Safety Nova Scotia does not assume responsibility for the use of information in this document. If assistance is needed to complete a SWP and SJP for your organization please contact CSNS member services at [constructionsafetyns.ca](http://constructionsafetyns.ca) or 1.800.971.3888.
