## Safe Work Practice

|   |  |                              |
|---|--|------------------------------|
| Name of Job:<br><b>Traffic Flow on Work Sites</b> | Development Date:<br><b>FEBUARY 1<sup>ST</sup>, 2011</b> | Developed By:<br><b>CSNS</b> |
|---|--|------------------------------|

### Possible Hazards Present

|                 |                 |                         |             |
|-----------------|-----------------|-------------------------|-------------|
| Heavy equipment | Moving vehicles | Other on-site processes | Environment |
|-----------------|-----------------|-------------------------|-------------|

### Personal Protective Equipment (PPE) and Devices Recommended

|                       |                  |                 |                 |
|-----------------------|------------------|-----------------|-----------------|
| Communication Devices | Steel toed boots | Hand protection | Reflective vest |
|                       | Light Wands      | Eye protection  | Hard hat        |

### What are some good general safe work practices?

- **DO** appoint a competent person to control the flow of traffic during busy times of the day.
- **DO** erect signs and barricades to direct traffic safety around the worksite.
- **DO** restrict on site traffic.
- **DO** obtain authorization to enter any restricted work areas.
- **DO** Vehicles should back in when parking.
- **DO** ensure that prior to operation: the operator of the vehicle must perform a walk around check of the vehicle and area.
- **DO** operate all motor vehicles in a safe and courteous manner.

Please note: This document is for information purposes only as a guide. The safe job procedures (SJP) and safe work practices (SWP) created for your workplace should reflect your organizations processes, equipment and hazards as identified by a hazard analysis. Construction Safety Nova Scotia does not assume responsibility for the use of information in this document. If assistance is needed to complete a SWP and SJP for your organization please contact CSNS member services at [constructionsafetyns.ca](http://constructionsafetyns.ca) or 1.800.971.3888.
