## SAFE WORK PRACTICE

Name of Job: <b>Snow Plowing</b>	Development Date:	Developed By:	Approved By:	Review Date:
-------------------------------------	-------------------	---------------	--------------	--------------

### Possible Hazards Present

Low visibility	Road conditions	Excessive noise	Fatigue
----------------	-----------------	-----------------	---------

### Personal Protective Equipment (PPE) and Devices Recommended

Communication device	Hand protection	Reflective vest	Steel toed boots
----------------------	-----------------	-----------------	------------------

- **DO** ensure you are well rested, physically and mentally before starting work.
- **DO** wear appropriate clothing for the conditions.
- **DO** Check all equipment prior to use:
  - Inspect lights, brakes, windshield wipers, defroster, plow bolts and chains, spreader and auger, flares and other safety equipment
- **DO** know your route. Before storm season, drive the route to identify any possible hazards. (guard rails, curbs, railroad tracks, bridge joints, mailboxes, manhole covers, etc.)
- **DO** choose the speed appropriate for the conditions. Resist the urge to get the job done quickly and focus on doing it safely.
- **DO** be considerate of motorists having trouble driving in the snow. Stay calm and be patient when vehicles pass or tailgate.
- **DO** be brief when using the radio. Report stranded motorists and other emergencies when possible.
- **DO** observe all traffic laws and signal your intentions clearly. Always wear your seatbelt.
- **DO** before leaving the cab, set the brakes and disengage the power to the spreader and snowplow.
- **DO** take measures to ensure you do not get locked out of your vehicle. Carry a spare key on your person at all times.
- **DO** watch for signs of fatigue. Plowing often consists of long hours and can be stressful. If you feel yourself getting tired, take a break.
- **DO** ensure you always have an adequate means of communication in case of emergencies.

Please note: This document is for information purposes only as a guide. The safe job procedures (SJP) and safe work practices (SWP) created for your workplace should reflect your organizations processes, equipment and hazards as identified by a hazard analysis. Construction Safety Nova Scotia does not assume responsibility for the use of information in this document. If assistance is needed to complete a SWP and SJP for your organization please contact CSNS member services at [constructionsafetyns.ca](http://constructionsafetyns.ca) or 1.800.971.3888.
