

The COR[®] Process

WHAT IS COR[®]?

Certificate of Recognition (COR[®]) is a health & safety certification program for organizations in construction and related industries. COR[®] is proof a company's safety program meets nationally established standards outlined by the Canadian Federation of Construction Safety Associations. It also meets the Workers' Compensation Board (WCB) Safety Certified criteria. Companies who maintain COR[®] standard are leaders in their industry, working to reduce workplace incidents and injuries.

Step 1: Determine your company classification

Owner/Operator (1 person)	Small Business 2-4 persons	Intermediate 5-19 persons	Standard 20+ persons
------------------------------	-------------------------------	------------------------------	-------------------------

Step 2: Training requirements

<ul style="list-style-type: none"> • Construction Entry-Level Training • Owner/Operator • + any compliance-based training required 	<ul style="list-style-type: none"> • Construction Entry-Level Training • Principles of Loss Control • Hazard Identification & Control • COR[®] Evaluation • + any compliance-based training required 	<ul style="list-style-type: none"> • Construction Entry-Level Training • Principles of Loss Control • Hazard Identification & Control • COR[®] Evaluation • Leadership for Safety Excellence • + any compliance-based training required 	<ul style="list-style-type: none"> • Construction Entry-Level Training • Principles of Loss Control • Hazard Identification & Control • COR[®] Evaluation • Leadership for Safety Excellence • + any compliance-based training required
---------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Step 3: Evaluation fees (taxes included)

Member \$113 Associate Member Plus \$250 Associate Member \$331	Member \$138 Associate Member Plus \$276 Associate Member \$363	First & Fourth Year: Member \$339 Associate Member Plus \$730 Associate Member \$995 Second & Third Year: Member \$138 Associate Member Plus \$276 Associate Member \$363	First & Fourth Year: Member \$592 Associate Member Plus \$983 Associate Member \$1375 Second & Third Year: Member \$144 Associate Member Plus \$288 Associate Member \$385
-----------------------------------------------------------------------	-----------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Step 4: Submission

<ul style="list-style-type: none"> • Owner/Operator instrument • Comprehensive Hazard Assessment 	<ul style="list-style-type: none"> • Safety Manual (first year) • COR[®] evaluation instrument 	<ul style="list-style-type: none"> • Safety Manual (first year) • COR[®] evaluation instrument (Followed by an external audit)	<ul style="list-style-type: none"> • Safety Manual (first year) • COR[®] evaluation instrument (Followed by an external audit)
--------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------
