## Safe Job Procedures

Name of Job: <b>Perimeter Fencing</b>	Development Date: <b>March 30th, 2011</b>	Developed By: <b>CSNS</b>
--	--	------------------------------

### Possible Hazards Present

Vehicle or property damage	Serious injury	Vehicular and foot traffic
----------------------------	----------------	----------------------------

### Personal Protective Equipment (PPE) and Devices Recommended

Steel toed boots	Eye protection	Hand protection	Hard hat
Visibility vest			

### What is a proper safe job procedure to follow?

- Inspect work area to determine the type and size of fencing to use (barricades, tape, snow fence, etc.)
- Take into consideration traffic control and work equipment travel patterns
- Erect perimeter fencing according to local regulations
- Proper signage is to be posted on fencing on each side of the fence
- The sign must include reasons for fencing, company name and contact number, name and contact number of supervisor
- Check fencing, at minimum, daily to ensure it hasn't been removed or damaged
- Fencing and signage to be removed immediately upon completion of work

Please note: This document is for information purposes only as a guide. The safe job procedures (SJP) and safe work practices (SWP) created for your workplace should reflect your organizations processes, equipment and hazards as identified by a hazard analysis. Construction Safety Nova Scotia does not assume responsibility for the use of information in this document. If assistance is needed to complete a SWP and SJP for your organization please contact CSNS member services at [constructionsafetyns.ca](http://constructionsafetyns.ca) or 1.800.971.3888.
