

The Process

WHAT IS COR®?

Certificate of Recognition (COR®) is a health & safety certification program for organizations in construction and related industries. COR® is proof a company's safety program meets nationally established standards outlined by the Canadian Federation of Construction Safety Associations. It also meets the Workers' Compensation Board (WCB) Safety Certified criteria. Companies who maintain COR® standard are leaders in their industry, working to reduce workplace incidents and injuries.

Step 1: Determine your company classification

Owner/Operator (1 person)	Small Business 2-4 persons	Intermediate 5-19 persons	Standard 20+ persons
------------------------------	-------------------------------	------------------------------	-------------------------

Step 2: Training requirements

<ul style="list-style-type: none"> • Construction Entry-Level Training • Owner/Operator + any compliance-based training required 	<ul style="list-style-type: none"> • Construction Entry-Level Training • Principles of Loss Control • Hazard Identification & Control • COR® Audit • + any compliance-based training required 	<ul style="list-style-type: none"> • Construction Entry-Level Training • Principles of Loss Control • Hazard Identification & Control • COR® Audit • Leadership for Safety Excellence • + any compliance-based training required 	<ul style="list-style-type: none"> • Construction Entry-Level Training • Principles of Loss Control • Hazard Identification & Control • COR® Audit • Leadership for Safety Excellence • + any compliance-based training required
